Insect and Mite Houseplant Mist offers unique advantages in a new combination of insect growth regulator (ALTOSID®), miticide (PENTAC®), and synthetic pyrethroid (RESMETHRIN). The insect growth regulator, a member of a ~~novel~~ new class of insect control agents, gives long term control of insects. The miticide is principally active on eggs as well as all other stages of mite development. The pyrethroid provides rapid knockdown of insect and adult mites. For plants which are normally misted, this new water-based formulation provides the moisture required by the leaves on the day of use.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Avoid contact with eyes. If eye contact occurs immediately flush eyes with plenty of water. Get medical attention if irritation persists.

ENVIRONMENTAL HAZARDS: Keep out of lakes, ponds or streams. Do not contaminate water by disposal of product.

This product is toxic to fish and other aquatic organisms. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters. Do not apply where run-off is likely to occur. Apply this product only as specified on this label.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. See accompanying plant list.

Do not apply this product through any type of irrigation system.

When aphids, whiteflies, mites, mealybugs or scales appear, mist twice, 7 days apart. Repeat treatment if reinfestation occurs. Mist newly acquired plants twice, 7 days apart.

1. **SHAKE WELL BEFORE USING.**
2. Direct applicator toward plant at a distance of 10 to 14 inches.
3. Apply a fine mist by depressing plunger quickly and firmly.
4. Mist for complete coverage of all plant surfaces, including underside of leaves: minimize runoff or drip.

PRECAUTIONS:

Protect fabrics and household furnishings. Avoid misting plants in direct sunlight or when foliage is wet. Do not mist plants grown for human consumption or contaminate food or feed. Do not mist near aquaria or terraria containing cold blooded pets (fish, amphibians, reptiles).

STORAGE AND DISPOSAL

Protect from freezing or extreme heat. Do not reuse empty container. Securely wrap original container in several layers of newspaper and discard in trash.

EFFECTS ON HOUSEPLANTS
